Fundraiser

Thankfully, we have got the situation with Corona in Germany under control, which means that everyday life is slowly returning. Unfortunately, the situation is different in other parts of the world.

Afghanistan has been plagued by war and poverty for over 40 years. Life there, especially for children, is determined by fear and ignorance. Now there is also the fact that the Corona Virus has also reached the shaken country. The collapse of the economy in Iran and its neighboring countries has brought thousands of Afghan refugees back to their homes. There are no possibilities to test them on SARS-CoV-2 beforehand. There is also a poorly functioning social and health system and far too few medical personnel. An investment in protective clothing or ventilators is not possible. As a result, the sick people cannot be treated and the virus spreads further and further.

The children in this country are so affected by misery and hunger. This forces families to send their children onto the streets so that they can somehow earn money there by begging. The contagion for the children is particularly high there on the street and your safety is not assured.

The people there hope and pray for our support.

We as an association ask ALL that we support the children with our fundraiser in this emergency situation so that they are spared the suffering.

Please support us so that we can help the children who are in need.

Our association will ensure that every euro arrives where it is needed.

We look forward to any financial support and thank you in advance.

Of course, you will receive a donation receipt.
